Wheel Raisers

STEEL AND ALUMINUM WHEEL RAISERS

- Eliminates unsafe, below dock loading conditions.
- Reduces damage to material handling equipment.
- Manufactured in height ranges up to 12".

Wheel raisers allow trailers to be positioned properly at or above dock height for safe, efficient loading and unloading. Wheel raisers are manufactured in widths of 18" and 24". The lengths can be made to accommodate any type of trailer. Wheel raisers can be portable or permanently anchored to the ground.

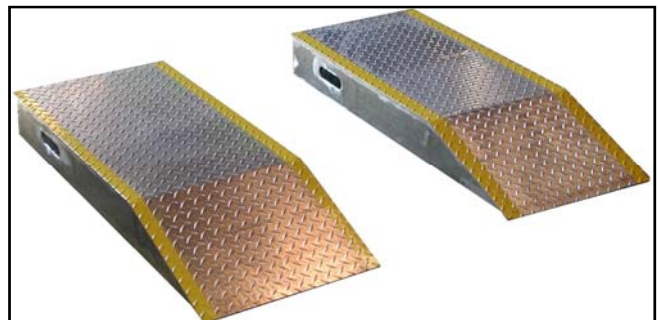

STEEL WHEEL RAISERS

- Includes Anchor Tabs for permanent mounting.
- 40,000 lb. Capacity

ALUMINUM WHEEL RAISERS

- Light weight for easy positioning.
- 24,000 lb. Capacity
