

# Aluminum Van Ramps and Walk Boards

Copperloy has been manufacturing aluminum Van Ramps and Walk Boards for over 50 years. Designed with high strength aluminum and all welded construction, our aluminum ramps are **BUILT TO LAST!**

Van Ramp

**Van Ramps** are manufactured in 2,500 to 4,000 lb. capacities, with overall widths of 38" and 44" and lengths from 6' to 16'. Van Ramps can service heights up to 48" (Depending on length).

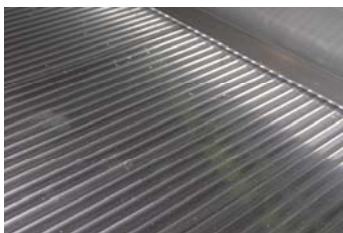

Walk Board

**Walk Boards** are manufactured for both Regular and Light Duty applications. Capacities range from 600 to 1,500 lbs., overall widths of 26", 30", 34" and 37" with lengths from 4' to 16'.

Twin-Lock Loading Ramps

These unique ramps are primarily used in the Concert / Theatre industry. **Twin-Lock** loading ramps are available in 3,500 to 7,500 lb. capacities with overall locked widths up to 84"

**Shark Tooth Decking** provides a non-slip deck surface
